PSIN2MC - Introduction

PSIN2MC - Admission

Decree of March 31st 2004 defining higher education, favoring its integration in the European framework of higher education and refinancing universities.

The admission requirements have to be met at the time of enrolment at the university.

All information can be obtained from the [University's Enrolment Office \(Service des inscriptions – SIC\)](#).

The following students, after meeting the conditions set by the academic authorities, have access to the complementary Master's degree with the aim of obtaining the grade that these studies sanction:

- An academic Master's degree within the same field allowing 2nd-cycle studies, including at least 120 credits
- An academic Master's degree, following a decision by the academic authorities, under the complementary conditions that they set and as a result of a motivated decision by the jury
- An academic grade which is similar to those mentioned above, issued by the Flemish Community, the German Community or the Royal Military Academy, under the same conditions
- A foreign academic grade that has been acknowledged as being equivalent to those mentioned above, in application of this decree, a European-level directive or an international convention, under the same conditions
- Under the same conditions, one or several titles or academic grade issued by the Flemish Community, the German Community or the Royal Military Academy, sanctioning 2nd-cycle studies and valued at least 300 credits by the jury, or sanctioning 2nd-cycle studies and valued at least 240 credits completed of 60 credits, the all that must be valued by the jury according to the decree of March 31st, 2004 (art 54, 5 °)

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail

Specific Admission Requirements

Admission conditions

- The applicant must hold the degree title of Doctor in Medecine or be a Doctor from a member country of the European Union authorising medical practice in Belgium.
- The applicant must be in possession of a document attesting that, at the end of the selection exams, he was retained as a specialist candidate in Psychiatry, orientation : 5nfanto-juvenile, in a Belgian medical faculty. The juridical context and practical procedures regarding these selection tests can be obtained from the secretary's office. Degree holders from outside the European Union are only allowed to register on the programme in the context of procuring a university certificate for partially specialised training for the duration of two years (if they are in the process of doing a specialisation in their country of origin) or for an in-depth specialised training course for the duration of one year (if they are already recognised as specialists in their own country). The Royal Decree of 30.05.2002, relating to the planning of the medical offer for the public, published on 14.06.2002, applies to those candidates wishing to obtain the title of Specialist Doctor in Psychiatry, orientation : Infanto-juvenile (those candidates are thus counted among the general practitioner candidates or specialists in the context of the numerus clausus).

Admission procedures

Applications for admission must be addressed to the academic supervisor. The organisation of the entrance selection tests is arranged in accordance with the calendar and the general examination rules and regulations.

PSIN2MC - Information

Learning outcomes

This complementary master's programme aims to prepare doctors to become officially recognised holders of the specific professional title of Specialist Doctor in Psychiatry, orientation : Infanto-juvenile (Ministerial Decree of 03.01.2002, published on 21.02.2002).

Evaluation

Regular evaluation of each candidate by means of discussions with his training supervisor. At the end of his 2nd year of training, the candidate will be evaluated in accordance with the quality of his apprenticeship and his evaluation scores for the different modules of his theoretical training. Further to the application of the Royal Decree of 16 March, 1999, at the end of his first two years of training, the candidate will receive an attestation proving that he has successfully accomplished a specific university training course. At the end of his 5th year of training, the candidate will be evaluated on the basis of a thesis or at least an article that he has had published in an international review and of which he is the principal author. Upon fulfilment of the above-described training requirements, the teaching committee will award the academic title in Psychiatry, orientation : Infanto-juvenile.

This title does not replace official recognition by the ministerial validation committee. It attests the successful completion of an academic and scientific study programme in the context of specialised training leading to this validation.

PSIN2MC - Detailed programme

Programme structure

The training course includes full time apprenticeships in recognised services and teaching centres. It lasts for at least five years, full-time, and alternates theoretical courses with apprenticeships. The apprenticeship project established by the university promoter must be approved by the ministerial validation committee for the speciality. These periods of practical training include being on call.

Programme by subject

Parallel to the practical training, the specialist candidate will follow a university training programme organised as follows :

Foundation studies : General Psychiatry

The training includes theoretical and clinical studies of the various branches of Psychiatry, i.e.:

- clinical psychology and general psychopathology
- anatomy and pathological anatomy, physiology, biochemistry and endocrinology related to psychiatry
- clinical and biological psychiatry and psychopharmacology
- psychotherapy
- social psychiatry; the organisation psychiatric care in and out of hospital, the legal aspects of psychiatry
- the diagnosing and treatment of psychiatric illnesses in children, adolescents, adults and old people
- technical diagnostic procedures proper to psychiatry and interpretation thereof
- legal psychiatry, or scientific and clinical expertise in psychiatry as applied to civil penal matters

The first two years form part of the specific university training programme (FUS, in French).

Higher studies : Psychiatry in Children and Adolescents

- Theoretical courses : In-depth questions on infanto-juvenile psychiatry
- Seminars : In-depth seminar on infanto-juvenile psychiatry
- Hospital training : Case studies on infanto-juvenile psychiatry
- Apprenticeships : at least 36 months of infanto-juvenile psychiatry and at least one year to be carried out in a recognised acute psychiatric service treating principally children and adolescents.

In addition, the student will choose optional courses or seminars, subject to the approval of the teaching committee. The student is likewise encouraged to enrol on the specialised diploma course in Psychotherapy (PCLI 3DS).
