## **ROM2M - Introduction**

## **ROM2M - Admission**

***For the specific conditions of this program : refer to the French version***

*General and specific admission requirements for this program must be satisfied at the time of enrolling at the university..*

## ROM2M - Information

### Learning outcomes

On completing the **Master in French and Romance Languages and Literatures : General**, students :

- will be able to undertake an in-depth analysis of both old and modern French texts, as well as the history of French and European literature. In this way they will be able to assess the special features in the history of Belgian literature and culture and where it stands in relation to the contemporary Francophone scene ;
- will have an appreciation of all aspects of language, from both a diachronic and a synchronic perspective ;
- will be able to express themselves, in writing, using French in a clear and structured way, using specific vocabulary as well as tools for the organisation and cohesion of discourse ;
- will be able to express themselves orally in French with fluency ;
- will have gained both oral and written competence in the use of one Romance language (Spanish or Italian) at [Level "B2+"](#) 

### Teaching method

The different pathways on offer provide the student with the chance to construct his course according to his skills and interests and thus gain relative autonomy in his training. The different areas of study in the programme offer a coherent, high-quality set of courses.

\* Promoting interdisciplinarity : first, the various options offer the student the possibility to include in his programme courses from other disciplines, for example by prolonging the minor taken in the bachelor programme. Second, the professional focuses in library studies and natural language processing are clearly interdisciplinary. In the end, the student's choices (geared towards the programme's interdisciplinary courses) hold sway.

\* Variety of teaching strategies (including e-learning) : whilst the mandatory core course foreign language courses (Italian and Spanish), use multimedia, the majority of masters classes use the resources provided by Icampus, which strikes the balance between traditional, lecture-style teaching and more one-on-one guidance.

\* Diverse learning situations : the master courses make use of both lecture situations and individual and group work in seminars, which is mandatory in the basic training. Incidentally, tutorials are planned for the dissertation, as part of the accompanying seminar.

### Evaluation

Students are evaluated in many ways: through work and oral/written exams.

Courses are evaluated according to current university regulations (see General Examination Regulations). Students may find further information on specific evaluation methods in the course descriptions.

### Mobility and/or Internationalisation outlook

If the Erasmus exchanges normally take place during the 3rd year of the bachelor, students on the master 120 can take 30 credits in other university institutions in Belgium or abroad, and/or undertake internships in Belgium or abroad (as part of their end of study dissertation and/or focus).

For example :

- ◆ [Universidad de Salamanca](#) ;
- ◆ [University of Helsinki](#) ;
- ◆ [Université de Toulouse Le Mirail - Toulouse II](#) ;
- ◆ [Universidad Nacional de La Plata](#) .

## TEACHING FOCUS [30.0]

The teaching focus is concerned with preparation for teaching at the higher levels of secondary education.

The programme is designed to develop the following skills :

- design, planning and assessment of practice ;
- ability to assess practices and their context ;
- understanding of the educational institution, its setting and players.

Three kinds of activities are involved :

- teaching practice at the higher levels of secondary education (60 hours)
- seminars ;
- lectures.

They are divided into two categories:

- teaching practice, multidisciplinary courses and seminars, common to all subjects. They have the code LAGRE (13 credits);
- subject-based teaching practice, courses and seminars (17 credits).

The teaching focus of the 120 Master's degree includes the teaching qualification *Agrégation de l'enseignement secondaire supérieur* (AESS – 300 hours, 30 credits), in line with the Decrees of 8 February 2001 and 17 December 2003 (on the foundation of neutrality) on the initial training of teachers in the higher levels of secondary education in the French Community of Belgium.

These 30 credits also form the AESS programme in Romance Languages and Literatures which may be taken after a 60 or a 120 Master's degree.

In practical terms, successful completion of the Master's degree with the teaching focus leads also to the award of professional status as a secondary education teacher. Assessment of the skills in the AESS programme is spread over the 2 years of the Master's degree.

*Students may if they wish combine this focus with an Erasmus or Mercator exchange which must take place either during the 2<sup>nd</sup> semester of the first year or the 1<sup>st</sup> semester of the second year.*

*All courses for the teaching focus must, however, be taken at UCL.*

### REMARQUE IMPORTANTE

En vertu de l'article 76 alinéa 3 du décret du 31 mars 2004 définissant l'enseignement supérieur, favorisant son intégration à l'espace européen de l'enseignement supérieur et refinançant les universités, les leçons publiques ne sont pas organisées à la session de septembre. L'étudiant est invité à tout mettre en oeuvre pour réussir les leçons publiques à la session de juin, sous peine de devoir recommencer son année.
