### Learning outcomes

This programme is a specialized course in history built on a general course in arts and letters.

Students at the end of the bachelors will have learned the methods of information and research specific to history studies:

- collect and evaluate documents in a critical manner (for example in the courses on general criticism of information and heuristics);
- write a balanced synthesis (in the framework of exercises, practical work and seminars).

**On successful completion of this programme, each student is able to :**

**1. Démontrer une connaissance et une compréhension critique et transversale des grands cadres de l'histoire occidentale, dans ses relations avec l'histoire mondiale, de l'Antiquité jusqu'à nos jours.**

- 1.1. Démontrer une connaissance et une compréhension critique des principaux cadres des différentes périodes de l'histoire (Antiquité, Moyen Age, Temps modernes, Epoque contemporaine, Temps présent).
- 1.2. Démontrer une connaissance et une compréhension critique des domaines spécifiques de ces différentes périodes (histoire institutionnelle et politique ; histoire économique et sociale ; histoire culturelle et intellectuelle ; histoire religieuse).
- 1.3. Comprendre, expliquer et analyser des questions transversales et/ou adopter un regard transversal en mobilisant de manière appropriée les fondements historiques.

**2. Maîtriser des connaissances et concepts de base d'autres disciplines, l'ouvrant à de grands courants de la pensée et de la culture occidentales ainsi qu'à d'autres sciences humaines et sociales (philosophie, histoire de l'art et archéologie, littératures, économie, anthropologie, ...).**

**3. Maîtriser les fondements théoriques des méthodes propres aux études historique et les appliquer, à des thématiques précises, prédefinies et encadrées par les enseignants (collecte de l'information ; critique des sources ; analyse critique et organisation des données recueillies ; élaboration d'une synthèse personnelle).**

3.1 Ebaucher une problématique et l'adapter au fil de sa recherche.

3.2 Réunir les documents (sources et travaux [heuristique]) en questionnant la validité et la pertinence des sources en regard de la problématique de recherche étudiée.

3.3 Analyser et évaluer la documentation de manière critique.

3.4 Organiser et traiter les données, notamment en utilisant les instruments informatiques adéquats, les interpréter et leur donner du sens.

3.5 Elaborer une synthèse correcte et pertinente (dans le cadre d'exercices, de travaux pratiques et de séminaires).

3.6 Communiquer les résultats de ses recherches sous une forme orale ou écrite.

**4. Poser un regard réflexif, en mobilisant une approche scientifique, sur l'histoire de sa discipline (historiographie) et sur sa propre pratique d'historien en construction.**

**5. Communiquer, à l'oral et à l'écrit, sur des sujets relatifs à l'histoire (des informations, des réflexions, des conclusions ainsi que les connaissances) de façon claire, structurée, argumentée.**

**6. Maîtriser les connaissances de base (lexique, morphologie et syntaxe) ou plus approfondies d'une langue ancienne ou médiévale (Latin ou Grec) et les mobiliser pour comprendre, traduire et analyser grammaticalement des phrases et textes simples rédigées dans cette langue.**

**7. Maîtriser un socle de connaissances fondamentales dans les domaines de la philosophie, de l'histoire, de l'histoire de l'art, de l'archéologie et des littératures.**

**8. Maîtriser avec rigueur et efficacité les discours universitaires, tant sur le plan de la compréhension que sur celui de la rédaction.**

**9. Devenir acteur de sa formation : gérer de manière autonome son travail (définir les priorités, anticiper et planifier l'ensemble de ses activités dans le temps), faire preuve de recul critique sur ses propres acquis, ses méthodes d'apprentissage et ses productions et intégrer par soi-même de nouvelles connaissances, méthodologies et compétences.**

**10. Mobiliser les compétences et savoirs disciplinaires acquis pour développer des attitudes d'ouverture à l'interculturalité, d'engagement citoyen et de positionnement critique vis-à-vis de soi-même, de la société, et des savoirs.**

**11. Communiquer à l'oral et à l'écrit de façon claire, cohérente, argumentée et avec aisance sur des sujets d'ordre général ou relatifs au domaine d'études dans au moins une langue moderne (anglais, néerlandais ou allemand).**

## Programme structure

The bachelor programme in History totals **180 credits over 3 years** (3 x 60 credits). It consists of a basic major syllabus of 150 credits and a minor syllabus of 30 credits (2 x 15 credits), over years 2 and 3.

Three pivotal courses make up the 150 credits of the **major orientation** of the bachelor syllabus:

(1) introduction to the **human sciences** (historical criticism, arts and civilisations, European literature, analysis and practice of academic discourse, ancient and modern languages, philosophy, anthropology and psychology, logic and argumentation, social and political economy, religious sciences);

(2) introduction to the **historical periods** (Antiquity, Middle Ages, Modern Times, contemporary era) and the historical fields – political and institutional, social and economic, religious, cultural and intellectual elements;

(3) **methodological and disciplinary training** (heuristics, [documentary research], historiography, quantitative methods, practicals and seminars).

The first year of undergraduate studies starts with a term of general foundation courses common to all of the faculty's Bachelor's programmes. Students will be introduced to history, art history, literature and the art of academic discourse, providing them with a solid grounding and the opportunity to transfer to a different programme if they so wish at the end of the first term.

They will also receive discipline-specific courses from the first term of Year 1. These will become their core courses in the second term of Year 1.

From Year 2, students continue their studies in their major subject and are also invited to choose a 30-credit minor with a view to broadening their intellectual and professional horizons. This minor can be selected from another faculty discipline or from another UCL faculty, subject to certain prerequisites set by the programme managers.

## HIST1BA - Information

### Admission

Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.

The admission requirements must be met prior to enrolment in the University.

**In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail**

- > General requirements
- > Specific requirements
- > Knowledge of the French language exam
- > Special requirements

#### General requirements

Except as otherwise provided by other specific legal provisions, admission to undergraduate courses leading to the award of a Bachelor's degree will be granted to students with one of the following qualifications :

1. A Certificate of Upper Secondary Education issued during or after the 1993-1994 academic year by an establishment offering full-time secondary education or an adult education centre in the French Community of Belgium and, as the case may be, approved if it was issued by an educational institution before 1 January 2008 or affixed with the seal of the French Community if it was issued after this date, or an equivalent certificate awarded by the Examination Board of the French Community during or after 1994;
2. A Certificate of Upper Secondary Education issued no later than the end of the 1992-1993 academic year, along with official documentation attesting to the student's ability to pursue higher education for students applying for a full-length undergraduate degree programme;
3. A diploma awarded by a higher education institution within the French Community that confers an academic degree issued under the above-mentioned Decree, or a diploma awarded by a university or institution dispensing full-time higher education in accordance with earlier legislation;
4. A higher education certificate or diploma awarded by an adult education centre;
5. A pass certificate for one of the [entrance examinations](#) organized by higher education institutions or by an examination board of the French Community; this document gives admission to studies in the sectors, fields or programmes indicated therein;
6. A diploma, certificate of studies or other qualification similar to those mentioned above, issued by the Flemish Community of Belgium (this qualification does not grant exemption from the [French language proficiency examination](#)), the German Community of Belgium or the Royal Military Academy;
7. A diploma, certificate of studies or other qualification obtained abroad and deemed equivalent to the first four mentioned above by virtue of a law, decree, European directive or international convention;

Note:

Requests for equivalence must be submitted no later than 14 July 2014 to the Equivalence department ([Service des équivalences](#)) of the Ministry of Higher Education and Scientific Research of the French Community of Belgium.

The following two qualifications are automatically deemed equivalent to the Certificate of Upper Secondary Education (Certificat d'enseignement secondaire supérieur – CESS):

- European Baccalaureate issued by the Board of Governors of a European School,
- International Baccalaureate issued by the International Baccalaureate Office in Geneva.

These two qualifications do not, however, provide automatic exemption from the [French language proficiency examination](#).

8. Official documentation attesting to a student's ability to pursue higher education (diplôme d'aptitude à accéder à l'enseignement supérieur - DAES), issued by the Examination Board of the French Community.

#### Specific requirements

##### Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

---

#### Exam of knowledge of the French language

Anyone not demonstrating sufficient [French language proficiency](#) will not be admitted to the first-year undergraduate examinations.

---

## Teaching method

The bachelors programme in Bachelor in History begins with a common semester made up of general courses given within the faculty. These general courses are taught by a team of teachers who emphasize an active exchange involving practical work and student participation. This common semester provides students with the opportunity to change to another bachelors programme at the end of the January exam session if the student's advisory office agrees.

From the second semester of the first year on, the courses specific to the students' bachelors programme use a variety of pedagogical methods (active learning, a balanced combination of individual and group work) with the aim of acquiring knowledge and the ability to analyse.

Throughout the student's bachelor programme in Bachelor in History, students experience a variety of teaching methods : lectures, group work, individual work, seminars. Some courses also use e-learning (exercises and resources are made available to students, pedagogical management, sharing and evaluation by the class of work).

## Evaluation

*The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".*

Depending on the nature of the course and the teaching methods, the evaluation will take different forms. Some courses will involve oral and/or written evaluations (held during one of the three exam sessions: January – June – August/September), whilst the evaluation of seminars will involve more substantial student participation as well as assessment of individual course work. Evaluation methods will be explained at the beginning of each course.

Those exams relating to courses on communication skills will evaluate the student's level, i.e. the practical use of the language in relevant situations.

Teaching methods are evaluated in accordance with the current University regulations (see [General regulations concerning examinations](#) ). Students may also find additional information regarding the evaluation of courses in the course description.

## Mobility and/or Internationalisation outlook

The Bachelor's programme of Bachelor in History allows students to do a part of their studies abroad during their third year ([Erasmus](#), [Mercator](#)).
