ORL2MC - Introduction

Introduction

ORL2MC - Teaching profile

Learning outcomes

This complementary master's programme aims to prepare doctors to become officially recognised holders of the specific professional title of specialist Doctor in Otorhinolaryngology (Ministerial decree of 08.12.1980, published on 03.03.1981, modified by the Ministerial Decree of 27.11.1995, published on 22.12.1995).

Programme structure

The training course includes full time apprenticeships in recognised services and teaching centres. It lasts for at least five years, full-time, consisting of two years of foundation studies and three years for the higher training. The apprenticeship project established by the university promoter must be approved by the ministerial validation committee for the speciality. These periods of practical training include being on call.

ORL2MC Detailed programme

Programme by subject

Parallel to the practical training, the candidate specialist will follow a university course organised as follows :

part - Foundation studies

- Theoretical courses: Audio-vestibulology (1st part), pathology and surgery of the Ear (1st part), pathology and surgery of the nostrils and sinus (1st part), pathology and surgery of the pharynx, larynx cervical region. Phoniatriy (1st part)
- Hospital training : Otorhinolaryngology polyclinic and turns on otorhinolaryngology wards

Options

- > LOGO2212 Audiologie[22.5h] (in French) Naima Deggouj
- > LOGO2123 Anatomo-physiologie de la phonation et de la déglutition[30h] (in French) Marc Remacle
- > MEX2100 Problèmes d'expertise médicale spécialisée[69.5h] (in French) Pierre Bernard, Frédéric Bonbled (coord.), Jacques Donnez, Jean-Yves Hayez, Philippe Knoops, Jean-Paul Roussaux, Arlette Seghers (supplée Jean-Paul Roussaux), Michel Thone, Romain Vanwijck
- > ORL2112 Consultations journalières en oto-rhino-laryngologie[15h] (in French) Michel Gersdorff, Marc Hamoir
- > MDTR3150 Leçons d'oto-rhino-laryngologie[15h] (in French) Marc Remacle

In addition:

15 hours of interuniversity conferences on Otorhinolaryngology

40 hours of meetings of the Royal Belgian Otorhinolaryngology and cervico-facial surgery.

The student may also follow courses given in other specialities, subject to the approval of the President of the Committee.

part - Higher studies

- Theoretical courses : Audio-vestibulology (2nd part), Pathology and surgery of the Ear (2nd part), Pathology and surgery of the nostrils and sinus (2nd part), Pathology and surgery of the pharynx, larynx cervical region. (2nd part), Phoniatriy (2nd part).
- Seminars : Seminar on Otorhinolaryngology.
- Hospital training : Operation demonstrations of Otorhinolaryngology.

In addition:

15 hours of interuniversity conferences on Otorhinolaryngology

40 hours of meetings of the Royal Belgian Otorhinolaryngology and cervico-facial surgery

ORL2MC - Information

Admission

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail

Decree of March 31st 2004 defining higher education, favoring its integration in the European framework of higher education and refinancing universities.

The admission requirements have to be met at the time of enrolment at the university.

The mentioned information may of modification for 2014-2015

All information can be obtained from the [University's Enrolment Office \(Service des inscriptions – SIC\)](#).

The following students, after meeting the conditions set by the academic authorities, have access to the complementary Master's degree with the aim of obtaining the grade that these studies sanction:

- An academic Master's degree within the same field allowing 2nd-cycle studies, including at least 120 credits
- An academic Master's degree, following a decision by the academic authorities, under the complementary conditions that they set and as a result of a motivated decision by the jury
- An academic grade which is similar to those mentioned above, issued by the Flemish Community, the German Community or the Royal Military Academy, under the same conditions
- A foreign academic grade that has been acknowledged as being equivalent to those mentioned above, in application of this decree, a European-level directive or an international convention, under the same conditions
- Under the same conditions, one or several titles or academic grade issued by the Flemish Community, the German Community or the Royal Military Academy, sanctioning 2nd-cycle studies and valued at least 300 credits by the jury, or sanctioning 2nd-cycle studies and valued at least 240 credits completed of 60 credits, the all that must be valued by the jury according to the decree of March 31st, 2004 (art 54, 5 °)

—
In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail

Specific Admission Requirements

Admission conditions

- The applicant must hold the degree title of Doctor in Medecine or be a Doctor from a member country of the European Union authorising medical practice in Belgium.
- The applicant must be in possession of a document attesting that, at the end of the selection exams, he was retained as a specialist candidate in Otorhinolaryngology, in a Belgian medical faculty.

The juridical context and practical procedures regarding these selection tests can be obtained from the secretary's office. Degree holders from outside the European Union are only allowed to register on the programme in the context of procuring a university certificate for partially specialised training for the duration of two years (if they are in the process of doing a specialisation in their country of origin) or for an in-depth specialised training course for the duration of one year (if they are already recognised as specialists in their own country).

The Royal Decree of 30.05.2002, relating to the planning of the medical offer for the public, published on 14.06.2002, applies to those candidates wishing to obtain the title of Specialist Doctor in Otorhinolaryngology (those candidates are thus counted among the general practitioner candidates or specialists in the context of the numerus clausus).

Admission procedures

Applications for admission must be addressed to the academic supervisor. The organisation of the entrance selection tests is arranged in accordance with the calendar and the general examination rules and regulations.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

The student needs to fill in an ongoing report of his work experience detailing all the scientific and didactic activities followed during the course of each year of training. Evaluation of the knowledge acquired is carried out in the form of an oral exam at the end of the first and second part of the studies. An end of course piece of work (based on a publication) is required and is presented orally before the teaching committee during the second session of exams.

Further to the application of the Royal Decree of 16 March, 1999, at the end of the first two years of training, the candidate will receive an attestation proving that he has successfully accomplished a specific university training course. Upon fulfilment of the above-described training requirements, the teaching committee will award the academic title in Otorhinolaryngology.

This title does not replace official recognition by the ministerial validation committee. It attests the successful completion of an academic and scientific study programme in the context of a specialised training programme leading to this validation.
