PNEU2MC - Introduction

Introduction

PNEU2MC - Teaching profile

Learning outcomes

This complementary master's programme aims to prepare doctors to become officially recognised holders of the specific professional title of Specialist Doctor in Pneumology (Ministerial Decree of 09.03.1979, published on 15.03.1979, modified by the Ministerial Decree of 22.04.2002, published on 25.07.2002).

Programme structure

The training course includes full time apprenticeships in recognised services and teaching centres. It lasts for at least six years, full-time, including three years of foundation studies in internal medicine and a higher training in Pneumology of at least three years. The apprenticeship project established by the university promoter must be approved by the ministerial validation committee for the speciality. These periods of practical training include being on call.

PNEU2MC Detailed programme

Programme by subject

Parallel to the practical training, the specialist candidate will follow a university training programme organised as follows :

part - Foundation studies

Three years, full time, consisting of :

- Theoretical courses
- Seminars
- A period of supervised hospital training

The theoretical sessions of the first two years form part of the specific university training programme (FUS, in French).

part - Foundation studies

Three years, full-time, consisting of :

- Theoretical courses : These courses are given in the context of the inter-university "MC", grouping 7 faculties of medicine.
- Seminars
- A period of supervised hospital training

In addition, 15 hours of optional courses to be chosen from among :

INTR2291 Exploration fonctionnelle cardiaque[15h] (in French) Claude Hanet (coord.), Agnès Pasquet, Erwin Schroeder

INTR2292 Pulmonary function testing[15h] (in French) Giuseppe Liistro, Eric Marchand

MDTR3180 Evaluation d'incapacité de travail et invalidités[15h] (in French) Frédéric Bonbled

PNEU2110 Supplements of pneumology[15h] (in French) Yves Sibille, Olivier Vandenplas

PNEU2120 Clinical allergy[15h] (in French) Yves Sibille, Olivier Vandenplas

PNEU2MC - Information

Admission

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail

Decree of March 31st 2004 defining higher education, favoring its integration in the European framework of higher education and refinancing universities.

The admission requirements have to be met at the time of enrolment at the university.

The mentioned information may of modification for 2014-2015

All information can be obtained from the [University's Enrolment Office \(Service des inscriptions – SIC\)](#).

The following students, after meeting the conditions set by the academic authorities, have access to the complementary Master's degree with the aim of obtaining the grade that these studies sanction:

- An academic Master's degree within the same field allowing 2nd-cycle studies, including at least 120 credits
- An academic Master's degree, following a decision by the academic authorities, under the complementary conditions that they set and as a result of a motivated decision by the jury
- An academic grade which is similar to those mentioned above, issued by the Flemish Community, the German Community or the Royal Military Academy, under the same conditions
- A foreign academic grade that has been acknowledged as being equivalent to those mentioned above, in application of this decree, a European-level directive or an international convention, under the same conditions
- Under the same conditions, one or several titles or academic grade issued by the Flemish Community, the German Community or the Royal Military Academy, sanctioning 2nd-cycle studies and valued at least 300 credits by the jury, or sanctioning 2nd-cycle studies and valued at least 240 credits completed of 60 credits, the all that must be valued by the jury according to the decree of March 31st, 2004 (art 54, 5 °)

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail

Specific Admission Requirements

Admission conditions

- The applicant must hold the degree title of Doctor in Medecine or be a Doctor from a member country of the European Union authorising medical practice in Belgium.
- The applicant must be in possession of a document attesting that, at the end of the selection exams, he was retained as a specialist candidate in Pneumonology, in a Belgian medical faculty.

The juridical context and practical procedures regarding these selection tests can be obtained from the secretary's office. Degree holders from outside the European Union are only allowed to register on the programme in the context of procuring a university certificate for partially specialised training for the duration of two years (if they are in the process of doing a specialisation in their country of origin) or for an in-depth specialised training course for the duration of one year (if they are already recognised as specialists in their own country).

The Royal Decree of 30.05.2002, relating to the planning of the medical offer for the public, published on 14.06.2002, applies to those candidates wishing to obtain the title of Specialist Doctor in Pneumonology (those candidates are thus counted among the general practitioner candidates or specialists in the context of the numerus clausus).

Admission procedures

Applications for admission must be addressed to the academic supervisor. The organisation of the entrance selection tests is arranged in accordance with the calendar and the general examination rules and regulations.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Semestrial clinical evaluations : these evaluations are established (in writing) by the practical training course supervisor of each candidate and aim to assess different items. The evaluations of all the candidates are reviewed during the two semestrial meetings of the ensemble of the practical training supervisors.

First part

At the end of these three years of training, each candidate will be evaluated during the course of an interview aimed at testing his general knowledge acquired in Internal Medicine. Further to the application of the Royal Decree of 16 March, 1999, at the end of the first two years of training, the candidate will receive an attestation proving that he has successfully accomplished a specific university training course.

Second part

At the end of these three years of training, each candidate will be evaluated during the course of an interview aimed at testing the in-depth knowledge acquired in Pneumology. The writing of a thesis(20-25 pages) on a subject of Pneumology. The instruction leaflet for the thesis is available at the secretary's office of the service. Publication of an article. Upon fulfilment of the above-described training requirements, the teaching committee will award the academic title in Pneumology.

This title does not replace official recognition by the ministerial validation committee. It attests the successful completion of an academic and scientific study programme in the context of a specialised training programme leading to this validation.
