OFTA2MC - Introduction

OFTA2MC - Teaching profile

Learning outcomes

This complementary master's programme aims to prepare doctors to become officially recognised holders of the specific professional title of specialist Doctor in Ophtalmology (Ministerial decree of 26.04.1982 published on 01.07.1982).

Programme structure

The training course includes full time apprenticeships in recognised services and teaching centres. It lasts for at least four years, full-time, including at least two years of foundation studies and two years of higher studies. At least 24 months out of the total duration of the training will be dedicated to polyclinic activities. The apprenticeship project established by the university promotor must be approved by the ministerial validation committee for the speciality. These periods of practical training include being on call.

OFTA2MC Detailed programme

Programme by subject

Parallel to the practical training, the candidate specialist will follow a university course organised as follows :

part - Foundation studies (FUS)

Two years of studies consisting of :

- Theoretical courses : In-depth questions on Ophtalmology, complements of Ophtalmology
- Seminars : Seminars on Ophtalmology
- A period of supervised hospital training : Demonstrations of Ophtalmology

part - Higher studies

Two years of studies consisting of :

- Theoretical courses : In-depth questions on Ophtalmology, Complements of Ophtalmology
- Seminars : Seminars on Ophtalmology
- A period of supervised hospital training : Demonstrations of Ophtalmology

During his period of higher studies, the candidate specialist will complete his knowledge of refined exploration techniques and prescribing and carrying out of optical corrections.

The programme's courses and learning outcomes

For each UCL training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"

The document is available by clicking [this link](#) after being authenticated with UCL account.

OFTA2MC - Information

Admission

For the specific conditions of this program : refer to the French version

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail

Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.
The admission requirements must be met prior to enrolment in the University.

General requirements

Subject to the general requirements laid down by the academic authorities, admission to the specialized Master's degree programme will be granted to students who fulfil the entry requirements for studies leading to the award of a Master's (second-cycle) degree and who hold a second-cycle diploma, degree, certificate or other qualification issued within or outside the French Community of Belgium, or whose prior learning or experience has been accredited by the Examination Board as being equivalent to at least 300 credits.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Annual evaluation.

Further to the application of the Royal Decree of 16 March, 1999, at the end of the first two years of training, the candidate will receive an attestation proving that he has successfully accomplished a specific university training course. At the end of his four years of training, the candidate will present a thesis and a publication in a specialised review. The final evaluation will be principally based on a group exam.

Upon fulfilment of the above-described training requirements, the teaching committee will award the academic title in Ophthalmology. This title does not replace official recognition by the ministerial validation committee. It attests the successful completion of an academic and scientific study programme in the context of a specialised training programme leading to this validation.
